EXPERIENCE

UX/UI DESIGNER - ROIVENUE, PRAGUE

2024 DECEMBER - PRESENT

Sole UX/UI Designer on the team, responsible for the end-to-end design of a complex B2B SaaS analytics platform. Led user research and client interviews, the full app UI redesign and UX Audit, and designed key features including Configurable Dashboards, Cohort Analysis, Table Creator, and UMM models. Also created graphic design assets and visuals to support client communication and presentations, collaborating closely with product and engineering from concept through implementation.

UX DESIGNER INTERN - NOIMPUNITY, LONDON

2023 FEBRUARY - JUNE 2024

I was part of the team at No Impunity, a startup dedicated to creating a platform where users make a meaningful impact by supporting legal actions against social or environmental injustices.
My responsibilities included crafting the landing page, designing the user dashboard and impact report tool, and overseeing research and testing efforts for the platform.

UX/UI DESIGN COURSE, CAREER FOUNDRY

2020 NOV - 2022 JAN

I have spent more than 500 hours of practice on UX & UI tasks. This course included an intensive practice of every stage of the design thinking process, learning through designing real prototypes based on research-driven, human-centred design for mobile applications and websites. The projects I've developed include Paylo online payment App and Homestead off-grid property market app.

BSC. PSYCHOLOGY, BIRKBECK UNIVERSITY OF LONDON

2016 JULY - 2020 JANUARY

I have achieved a 2.1-degree gaining knowledge and experience in Psychology, Neuroscience and Conducting Experimental Research accredited by the British Psychological Society. My final project explored The Impact of Smartphone Usage on Attention Control by Comparing Hight vs. Low Smartphone Users (the first study using ScreenTime).
